## Corporate Overview

Pantheon Integrated Solutions, Inc. (Pantheon) is a certified small business, providing management consulting, acquisition and program management services to the DoD & US Federal Agencies.

Our professionals are subject matter experts in integrated program management across a wide range of acquisition disciplines. We bridge theory and practice by bringing data to life and into actionable intelligence. By applying the power of analytics and cutting edge Business Intelligence (BI) tools and strategies to customer/industry data, we shed light on root causes, identify trends and anomalies, build predictive models, and facilitate cost savings initiatives. We design and implement tactics and strategies. We succeed by anticipating future issues and then managing risk and leveraging opportunities. Pantheon provides *integrated services* coupled with *business analytics* to *empower our customers* to optimize their business solutions and increase the likelihood of programmatic success.
